25X1

1. Part of the airfield near LODZ (J 52/0 93) had been rebuilt. There was a 230 x 5,600 foot concrete runway, a 10,000-foot circular taxiway and 50 concrete aircraft revetments. The landing field was graded and sodded.
2. A hangar, one two-story and two one-story residential blocks were under construction.
3. The field was occupied by a detail of eight soldiers from the aircraft factory on Leonhard Square, who guarded the four aircraft stationed there.

25X1

[ ] Comment:

The information is virtually confirmed by other reports covering the period from June 1946 to May 1949. The data on the length of the concrete runway varies from 4,000 to 5,600 feet. It is not assumed that an air unit is stationed there. The field is being used by the Polish LOT Airlines. According to a previous report \*, the field was allegedly to be occupied by a pilot school and an air regiment. This information has not been confirmed.
